Directions

Input: To charge the Portable Charger

1. To begin charging, connect one end of the Micro USB cable (included in the packaging) to the portable charger's input and the other end to any USB power supply.
2. The LED battery level indicator will light up to show charging is in progress. The Portable Charger is fully recharged when all 3 LED indicators remain lit.

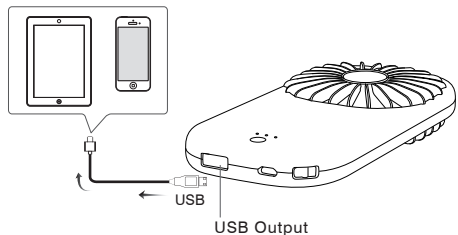

NOTE: USB Wall Charger is not included.

— 3 —

Output: To charge a mobile device

1. To begin charging, connect one end of your USB cable to the portable charger's output and the other end to any of your devices.
2. Charging begins right away.
3. To stop charging, disconnect the USB cable from your device. Auto shut-off occurs after 20 seconds.

NOTE: Tablet and smartphone are not included.

1 Year Limited Warranty

At Camelion, we are dedicated to making the best quality products. To back this up, our products are warranted for 1 year from date of purchase. The limited warranty covers failures due to defects in material and workmanship. Your Camelion product is only covered by the warranty policy of the country where the product was originally purchased. The limited warranty is only applicable to the original purchaser of the product. A copy of the purchase receipt must be kept as proof of purchase. The maximum liability of Camelion is equal to, and no higher than, the product's purchase price. The limited warranty does not, under any circumstances, cover the replacement or cost of any electronic device or personal property inside or outside of the Camelion product. If the returned product is discontinued, Camelion will replace it with a product of equivalent value and features.
